**D. Department Report -** Bryan "Buck" Samples provided the following report on department activities:

**D.1 33 West Extension North** – Buck reported that this has been a complicated project, but Brian and his crew has done a great job. Brian has the inverted siphon complete (Creek Crossing). We have the main sewer line hooked up. We have moved back to upper end (Mike Ross property). We have hired a part time person, Ethan Crosten, who is an engineering student and is working with Sam on ROW for this project. We can now hook up the Way of Holiness, Block plant, JF Allen

office building, and Diversified Drilling.

Board member Loftis ask how close to completion was the project. Mr. Samples said it was about 60 to 70% complete.

# D.2 33 West Extension South- JF Allen project - Nothing new to report on this project.

# **D.3 Plant Operations- Testing** – All tests are in limits. We have moved Jason Tenney to the lab for training 2+ hours per day.
